## The Leading Medical Malpractice Firm in Pittsburgh

We are the most recognized, and most feared, law firm in the city for a reason. We employ a physician and a nurse, full-time, to assist in our uniquely intellectual forensic approach to screening and pursuing malpractice cases. Our approach and years of record-setting trial results have earned us the respect of our clients, our opponents and even judges. To pursue today's healthcare giants, you and your loved ones need a firm that specializes in medical malpractice.

## Experience Resolving Big Cases

When tragedy strikes, unfortunately, all that the civil justice system has to offer is money. Money doesn't heal the wounds and money doesn't restore those things that are most precious. We truly understand. We also know that money does ease financial hardships and makes future problems easier to deal with.

We have obtained record-setting verdicts and settlements for victims of medical malpractice. We have earned our reputation and accolades with fierce and compassionate dedication to each and every client. Rely on our intellect and experience to obtain the results your family deserves.

## Get Answers. Get Justice.

Do you suspect your loved one suffered serious harm because of medical negligence? Are you getting stonewalled by the hospital when you ask questions?

***You should at least talk to us before hiring another law firm. Choosing your lawyer will be the most important component of putting your life back together. Reach out to us for a free consultation and case evaluation. Time is of the essence to collect the evidence you need.***
